Education:

Bachelor's in Software Engineering (7th Semester)
Arid Agriculture University, Rawalpindi

Professional Experience:

Frontend Developer Intern- Alfabolt (Nust, H12)- Jun 2025-Aug 2025

- Built multiple responsive web projects using **Next.js** and **React.js**, applying modern development practices and component-based architecture.
- Delivered a full-stack **Blog App** as the final project, featuring authentication, CRUD operations, analytics, and optimized UI/UX.

Frontend Developer Intern- Dassoft (Gulberg, Isb)- March 2025-Jun 2025

- Designing and developing responsive user interfaces using React and Tailwind CSS.
- Collaborating in a hybrid environment on real-time web development projects.

Projects:

- Develop a full-stack **Blog App** using Next.js, React.js, Redux.js and Supabase featuring authentication, CRUD operations, analytics, and optimized UI/UX.
- Develop a Portfolio Site for Restaurants using React.js and Tailwindcss.
- Designed and developed the user interface for the live e-commerce platform Ebey.pk.
